PARATHOM DIM PAR16 PAR16 50 GU10 36° 4.5W 4000K bulb

Ref. O608252

PARATHOM DIM PAR16 50 GU10 36° 4.5W 4000K neutral white light - Dimmable, is the perfect alternative to the GU10 halogen bulb. It is a spotlight bulb with a diameter of 51mm. The lamp operates at 224V and does not require a transformer. Switching to LED will provide you with numerous advantages! You can save up to 90% on energy and maintenance costs, due to the low power consumption of 4.5W and its lifespan of 25,000 hours. Traditional halogen GU10 bulbs last only 2,000 hours. LED lighting does not produce heat or emit UV radiation. The installation of the bulb is very simple, remove the old halogen GU10 and insert the new LED into the lamp and twist it to connect. ✓ Kelvin: 4000K ✓ CRI: ≥90 ✓ Power: 4.5W ✓ Socket: GU10 ✓ Dimmable: Yes
