

Wireless opening sensor for doors and windows - SONOFF DW2-wi-fi

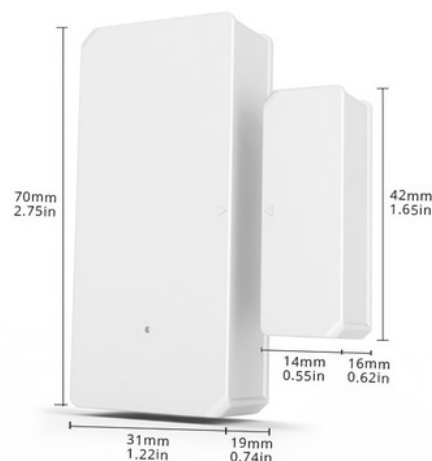

Ref. SONOFFDW2-WIFI

The SONOFF DW2-wi-fi is a SONOFF SMART HOME sensor that detects the opening of a specific door or window and sends a signal to your smartphone via the eWeLink app, compatible with all SONOFF Wi-Fi products. Upon receiving the alarm about the opening of any door or window, you can activate any action you want to perform from your phone, for example, turning on a light. You can program it to be done automatically when a specific door or window is opened or closed. The installation of the sensor is simple; just apply it to the desired door or window.
