Solar LED bollard "FELICE 200" 18cm with PIR sensor - 3 operating modes - CCT

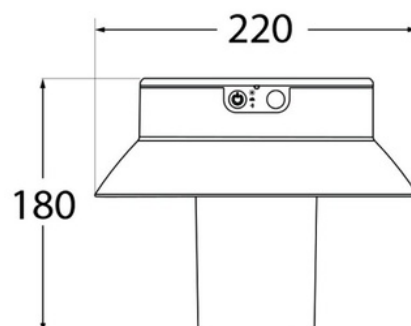

Ref. FE1.573.000.A0S1KOP2

LED solar garden bollard from the Italian brand FUMAGALLI with a motion sensor and replaceable battery. It is made of resin that is resistant to shocks, corrosion, and degradation by UV rays. Perfect for illuminating gardens and terraces, or to highlight pathways. Incorporates CCT system that allows you to adjust the color temperature between warm white, cool white, and neutral white. Additionally, it has 3 operating modes: summer, winter, or sensor. It is a luminaire with Class III protection and IP55. Available in black with opal reflector.
