

Quick connector cable for connection between RGBW LED strips 12/24V

Ref. B1688-RGBW

Fast connection cable to connect 5-wire RGBW LED strips 12 / 24V. Use this cable to join two sections of the RGBW LED strip. The LED strips have a connection cable at the beginning and the end. However, it is common to make several cuts for custom assemblies. With this connector cable, you can easily use and splice these sections of RGBW LED strip very easily and without issues.

Product data

Track width (mm)	12
Certs	CE, ROHS
Frequency of Use	Intensive
Guarantee	According to legal warranty: 3 years
IP	IP20
Material	Plastic, Metal
Temperature range	-20°F ~ +40°F
Control system	RGB-W
Nominal Voltage (V)	12/24V-DC
Outdoor Use	No
