

Three-phase track for LED spotlights - 2 meter bar

The 2-meter long surface three-phase track allows for the installation of LED lights and easy relocation according to needs. It is made up of an aluminum profile available in two colors (white or black), with 3 electrical lines that allow for three independent switches on the same track. This offers great versatility for the differential switching on and off of luminaires, according to the requirements of each project. ****Includes start feeder and end cap****
