

RGB submersible LED spotlight for boats - 12V - 30W - IP68

Ref. B2176

RGB Submersible LED Spotlight of 30W. It is mounted on the surface over the hull, submerged below the waterline. No drilling required, operates at 12V, and provides powerful multicolor lighting underwater. Manufactured from marine stainless steel AISI 316L with IP68 protection. Includes a 2-meter cable. The control of the RGB lamp is done via a Bluetooth controller (not included) and a smartphone app.
