

## Intelligent LED Strip IC 12V DC - 14,4W/m - IP67 - 60 LED/m - Width 10mm - 6000K - 5 meters

### Ref. B1542-3IC-BF

12V Smart LED Strips DC, total power 72W, width 10mm (12mm with silicone coating) and luminous angle 120°, for outdoor IP 67. Cool white 6000K 12V DC 72W (14.4W/m) 5 meters Width: 10 mm Cut: 50mm IP67 300 x SMD5050 Chip IC WS2811

### Product data

|                         |                                      |
|-------------------------|--------------------------------------|
| Adhesive                | No                                   |
| Track width (mm)        | 10                                   |
| Opening angle (°)       | 120                                  |
| Certs                   | CE, ROHS                             |
| Energy efficiency class | A+ (2021)                            |
| CRI                     | 80-85                                |
| Dimensions (mm) LxWxH   | 10 x 5000, 5000 times 12 times 4     |
| Dimmable                | Yes                                  |
| Cut distance (mm)       | 50                                   |
| Frequency (Hz)          | 50 - 60                              |
| Guarantee               | According to legal warranty: 3 years |
| IP                      | IP67                                 |
| Kelvin (K)              | 6000                                 |
| # Chips per meter       | 60                                   |
| Power (W)               | 72                                   |
| Power/m (W/m)           | 14.4                                 |
| Nominal Voltage (V)     | 12V DC                               |
| Type of LED             | SMD 5050                             |
| Key                     | Cold white                           |
| Outdoor Use             | If                                   |
| Recommended Use         | Garden                               |
| Service life (h)        | 25,000                               |
