

Outdoor solar wall lamp with PIR sensor - 1W (2x0.5W) - IP44

Pack of 2 outdoor solar sconces. Each solar sconce incorporates two 0.5W LED lights, a PIR sensor, and a solar panel that allows for recharging its internal battery. The battery charges automatically during the day and turns on the lights at night, with 4 different operating modes. It features an original design that references the vision of an Owl. By incorporating solar energy, these fixtures are eco-friendly, environmentally friendly, low-voltage, and safe. Available in warm white (3000K) and cool white (6000K).

Product data

Light temperature	3000°K, 6000K
