

Outdoor LED CCT solar spotlight with stake - 1W - IP65

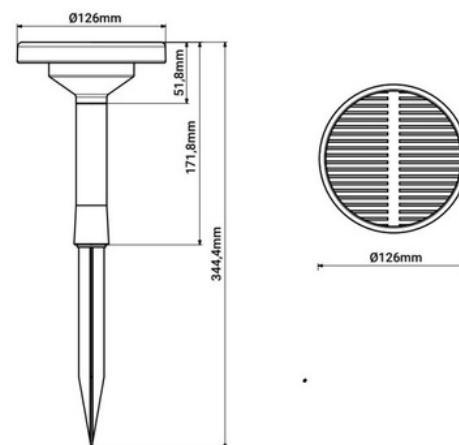

Ref. SL28-CCT

Pack of 2 outdoor solar stakes with spike, made with materials resistant to impact and degradation from UV radiation. They incorporate a light sensor that allows the lights to turn on automatically at night. They are perfect for illuminating gardens, terraces, or as a light point in any outdoor space. They are installed driven into the grass, sand, or soil. They have a CCT system that allows you to adjust the color temperature between warm white, cool white, and neutral white. Available in black color.
