Outdoor series connectable garland - IP65 - 6.5 meters - 10 x E27

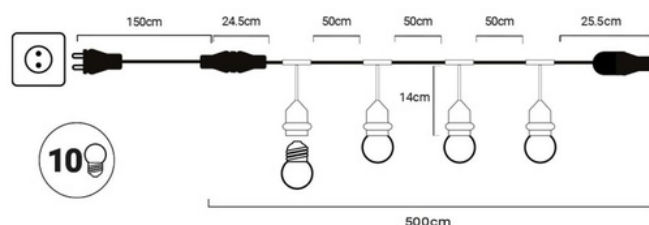

Ref. L1800-5

Outdoor light garland equipped with 10 sockets, with a distance of 50 cm between bulbs. Equipped with a European Schuko type plug. At the beginning, it has a male/female connector and at the end, a female connector to easily make cable connections. The garland is connectable in series, so multiple units can be joined together, achieving long runs. Due to its IP65 protection rating, it is a product suitable for outdoor installation. Both the cables and the plugs, connectors, and sockets are protected against external factors such as humidity, rain, dust, and general particles. ** LED bulbs not included **

Product data

Beam angle (°)	360°
Cap	E27
