

RGB LED Strip 24V-DC 100W 10mm IP20 - Coil 5 meters

Ref. B1558RGB

RGB LED Strip with high power, measuring 5 meters in length. It features 120 SMD5050 chips per meter and is intended for indoor use only due to its IP20 protection rating. It includes a 3M adhesive tape for easy installation and proper heat dissipation. Width of the LED strip: 10mm. It requires a 24V power supply (sold separately). The power of the strip is 100W. Power: 100W Voltage: 24V-DC Angle: 120° IP20 Chips: 600 x SMD5050 Width: 10mm Cutting diameter: 50mm

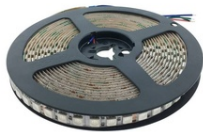

Product data

| | |
|---------------------|----------|
| Adhesive | Yes |
| Track width (mm) | 10 |
| Certs | CE, ROHS |
| Cut distance (mm) | 50 |
| Guarantee | 3 years |
| Power/m (W/m) | 25 |
| Nominal Voltage (V) | 24V DC |
| Type of LED | SMD 5050 |
| Key | RGB |
| Outdoor Use | No |
