

Round recessed downlight trimless GU10 plaster round trimless

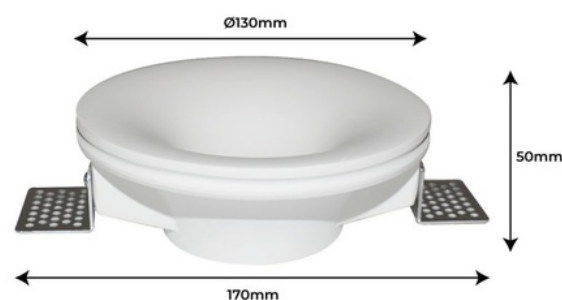

Ref. B251

Aro trimless recessed downlight made of white plaster with a diameter of Ø133mm for GU10 LED bulbs. Gypsum spotlight for recessed ceiling installation in a circular shape. Its structure allows it to be almost invisible. It can be painted with the same paint as the ceiling for complete integration. Designed for installation on walls or ceilings to avoid glare. Ideal for use in hallways, shops, stores, offices, and at home. Suitable exclusively for drywall and plaster ceilings. No transformer required. *LED GU10 bulb not included*
