

Intelligent RGB flexible LED neon IC - 360° circular - Ø22mm - 2 meters - 12V DC - 28W/m - IP65

Ref. NSD22-2M-IC

The 360° flexible RGB IC LED Neon allows for decorative lighting with a high visual impact. By incorporating dual LED IC strip, it features a high density of LED chips (216 chips/m), ensuring powerful, stable, and uniform lighting. Each LED IC strip incorporates the SMD3535 type LED chip and its integrated controller (IC) every 3 LEDs, allowing for individual control of each section of the strip. This way, the neon can be programmed to create complex light patterns and custom animation effects. By emitting light in 360°, it allows for installation in different positions, even surrounding objects. Its protection rating IP65 enables its use outdoors and ensures high durability. Requires IC controller.

Product data

Opening angle (°)	360°
Certs	CE, ROHS
Dimensions (mm) LxWxH	ø 22 x 2000
Dimmable	No
Guarantee	According to legal warranty: 3 years
IP	IP65
Material	Silicone
Power/m (W/m)	28
Nominal Voltage (V)	12V DC
Type of LED	SMD 3838
Key	RGB
Outdoor Use	If
Recommended Use	Hotels, Commerce, Restaurants, Fascias
