

Intelligent RGB flexible LED neon IC - 360° circular - Ø22mm - 4 meters - 12V DC - 28W/m - IP65

Ref. NSD22-4M-IC

The 360° flexible RGB IC LED Neon allows for achieving a high-impact decorative lighting. By incorporating a double LED IC strip, it features a high density of LED chips (216 chips/m), ensuring powerful, stable, and uniform lighting. Each LED strip IC incorporates the SMD3535 LED chip type and its integrated controller (IC) every 3 LEDs, allowing for individual control of each section of the strip. This way, the neon can be programmed to create complex light patterns and custom animation effects. By emitting light in 360°, it allows for installation in different positions, even surrounding objects. Its protection rating IP65 allows for outdoor use and ensures high durability. Requires IC driver.

Product data

Opening angle (°)	360°
Certs	CE, ROHS
Guarantee	According to legal warranty: 3 years
IP	IP65
Material	Silicone
Power/m (W/m)	28
Nominal Voltage (V)	12V DC
Type of LED	SMD 3535
Key	RGB
Outdoor Use	If
Recommended Use	Hotels, Commerce, Restaurants, Fascias
