

"Blue Skylight" sky effect panel - Daylight - 48W

Ref. B5228-BS-60X30

Our "Blue Skylight" panel incorporates a groundbreaking technology capable of producing natural light with a depth and colors similar to those of a real sky. It is an original structure 19 cm thick, which combines a fine light-diffusing panel with an LED lighting method that accurately simulates sunlight. It is a product specifically designed for offices, public facilities, underground spaces, and other environments where natural light is limited or not available. It allows recreating a bright blue sky, establishing a connection with the outside, and thus increasing the well-being of users. **5 Year Warranty**
