

## LED Strip 24V-DC 10W/m SMD5050 IP68 20 meters Roll

20-meter roll of silicone LED strip (IP68) for outdoor use. Nominal power 10W/meter, allows cutting to size every 10cm. Depending on the mounting system, this innovative high-quality strip allows for installation of runs up to 40 linear meters with a single power supply connection in the center, powering towards the sides. Consult with our sales department, and we will propose different options for easily mounting this versatile 24V LED strip. 24V-DC 10W/meter SMD5050 20 meters IP68

### Product data

Light temperature	3000°K, 6000K, RGB
Adhesive	No
Track width (mm)	12
Opening angle (°)	120
Certs	CE, ROHS
Energy efficiency class	A+ (2021)
Dimensions (mm) LxWxH	20000 times 12
Dimmable	Yes
Cut distance (mm)	100
Frequency (Hz)	50 - 60
Guarantee	According to legal warranty: 3 years
IP	IP68
Kelvin (K)	3000
# Chips per meter	60
Power (W)	10
Power/m (W/m)	10
Temperature range	-20°F ~ +40°F
Nominal Voltage (V)	24V DC
Type of LED	SMD 5050
Key	Cold white, RGB
Outdoor Use	If
Recommended Use	Garden

Service life (h)

25,000
