

Pack of 8 slim LED panels 120X30 cm - Driver Philips - 44W - UGR19

PACK x 8 LED recessed panels 120x30cm - PHILIPS driver. The panels feature a sleek, ultra-slim design and cutting-edge technology that allow them to provide powerful, uniform lighting in 3 color temperatures: warm white (3000K), neutral white (4000K), and cool white (6000K). They incorporate a micro-prismatic diffuser that ensures glare-free lighting (UGR<19), ideal for offices, conference rooms, schools, or hospitals. Thanks to their high color rendering index (CRI>80), they reproduce colors very similarly to natural light. The panels can be mounted on false ceilings (removable ceiling tiles of 120x30cm) or embedded directly into drywall using an inset frame (not included).
