

MONOCOLOR controller for LED strips with RF touch panel - 5-24V/DC

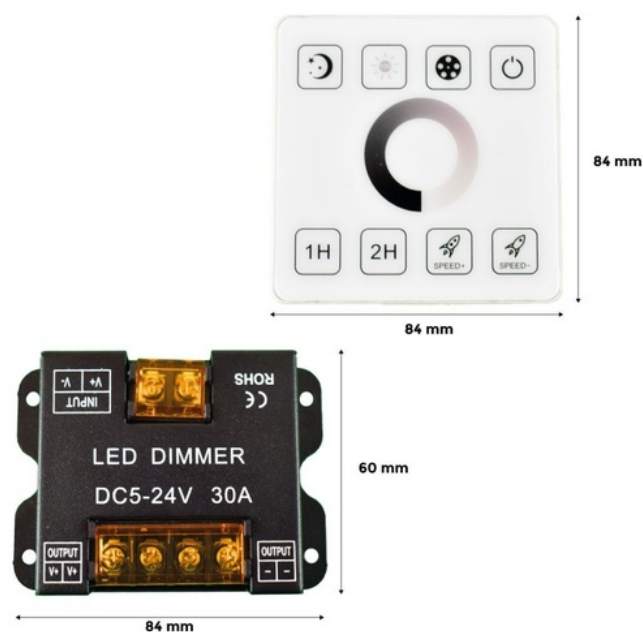

Ref. RF86-01

The monochrome controller for LED strips allows you to control the lighting of monochrome LED strips using a soft and highly sensitive touch panel. Additionally, it saves the user settings and can be easily mounted on the wall using two adhesive strips (included), or with two screws (not included). Compatible with most single-color LED strips on the market. Maximum range: 15 m. Ideal for creating environments with personalized lighting easily. **Includes: a controller, a touch panel, 2 adhesive tapes, and a manual**
