

Wall light "PAIR" E27 with 3W LED reading lamp

The "PAIR" wall sconce is specifically designed to be installed on headboards. It features an elegant fabric shade and incorporates a 3W adjustable LED bulb that functions as a reading lamp. This way, it allows you to choose between the general lighting of the shade or the focused light of the LED bulb using two independent switches. Its structure is made of metal with a high-quality epoxy paint finish and is available in 5 color variations: white, black, green, nickel, and linen. The screen accommodates an E27 bulb (not included). The LED bulb emits light in a warm white tone (3000K). **E27 bulb not included**
