

LED spotlight for three-phase rail special for butchers - Integrated driver Philips Xitanium-LED COB - 40W

LED Spotlight for three-phase track specially designed for butcher shops, distinguished by its eye-catching compact design and its high-quality Philips Xitanium "intrack" driver with a 5-year warranty. This driver is incorporated into the same connection piece of the spotlight to the track. Its powerful beam of light with LED COB chip illuminates details with precision, featuring a high color rendering index (CRI>80), allowing the true colors to be displayed naturally. It features a 360° rotating body and a 45° focal light angle, providing an ideal spotlight for highlighting objects or products. It emits lighting in a pink spectrum range that enhances the color of the meat, giving it a fresh appearance, favoring the customer's purchasing decision. Available in white or black.
