

AiDimming Zhongshan AiDimming Electronics Co., Ltd. Non-Dimming LED Driver/Constant Current

PE292B 20-30W
PE291B 30-40W

Features:

- LED universal dimming driver, dimming range 0-100%
- Suitable for RFC MOSFET dimmer and PFC TRIAC dimmer
- Active PFC
- Protection circuit/over voltage/over current
- Natural cold wind
- Big terminal locked by screw
- Suitable for LED home lighting and commercial lighting
- Safe no load protection device
- Economic and convenient installation
- conform to the world lighting equipment safety standards
- Protection class II
- Three years warranty

General description:

PE292B-PE291B is one of the constant current dimming LED driver developed by my company with high power factor, high efficiency, high precision, the use of the efficient stable low loss switch control chip and the high performance components make it with low noise, long life and other characteristics.

Certifications: RoHS, SELV, CE Class 2, PFC, RECFE, SELV, Over-voltage Protection, No-load Protection, Flicker-free

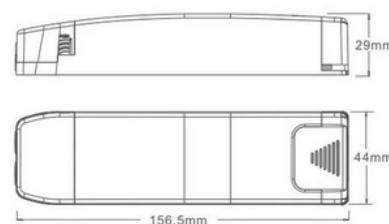

Driver TRIAC dimmerabile 43-60V-DC 500ma 30W

Ref. PE292B6050

Driver dimmabile Triac 43-60V/DC, corrente costante, 500ma, 30W. Regolazione PFC intelligente, gamma di regolazione 2/100%. Driver dimmabile Triac a corrente costante progettato specificamente per il dimming TRIAC di apparecchi di illuminazione a LED. Certificato TUV. NO Flicker, senza sfarfallio. Le protezioni includono SCP/OCP/OVP/OTP. Potenza 30 Watt, garanzia di 2 anni.

Dati del prodotto

Certificati	CE, ROHS
Classe di efficienza energetica	A+ (2021)
Connettività	Mediante cablaggio
Dimensioni (mm) LxIxh	156.5x44x29
Frequenza (Hz)	50 - 60
Frequenza d'uso	Intensivo
Garanzia	Secondo la garanzia legale: 3 anni
Materiale	Plastica
Potenza (W)	30
Sensore	No
Sistema di controllo	TRIAC
Tensione di uscita (V)	43-60V-DC
Tensione Nominale (V)	180-240V-CA
Uso Esterno	No
Vita utile (h)	25.000
