

8 meter solar panel LED garland with 10 integrated bulbs

Ref. SL22

LED String Light with Solar Panel. Compact design for both outdoor and indoor use, with quick and easy installation. The string light includes 10 G50 LED bulbs at 3000°K with a total power of 3.8W and a luminous intensity of 160 lumens. It includes a plastic stake for inserting into the soil or sand, with a solar panel for charging a 2000mAh battery. A perfect fixture, with an IP44 protection rating, for outdoor decoration such as gardens, terraces, at events, restaurants, hotels, or in the home. Allows you to choose between intermittent and steady-on mode.
