

Submersible RGB LED spotlight for boats 12V - 60W - Flush mount in drainage plug

Ref. B2192

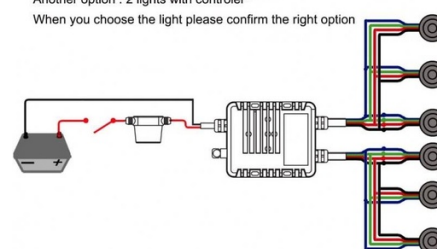

60W RGB LED Underwater Lights for boats, speedboats, pleasure yachts, and recreational vessels. Installation is done directly on the hull of the boat, submerged below the waterline. Made with a stainless steel housing with AISI 316L marine treatment and an input voltage of 12VDC. The control of the RGB lamp is done via a Bluetooth controller (not included) and a smartphone app. 60W 12VDC RGB Stainless Steel 316L IP68

Note: there are two options

One option : 1 light without controller

Another option : 2 lights with controller

When you choose the light please confirm the right option

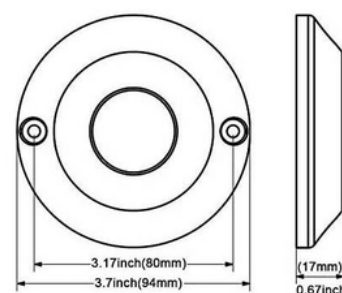

One controller can drive 6 pcs Jiawill RGB lights

If you want to install 2+ lights please refer to this picture
