

Aluminum profile for flexible swimsuit

Ref. K1939-PERF

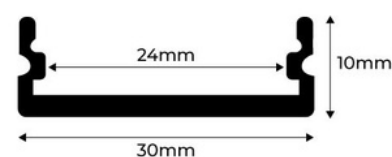

Surface profile for flexible swimsuits model B1939-270 [1] y 1939-RGB [2] The aluminum profile for flexible skirts allows for a simple and elegant installation of flexible skirts. They are specially designed to be anchored to walls, floors, or other types of surfaces, securely holding the skirts in place. Perfect for protecting and securing the skirts, enabling professional, clean, and stylish installations. The aluminum profile for surfaces can be used indoors or outdoors. Its shape is similar to a U to improve heat dissipation and extend the lifespan of flexible bathtubs. The profile also helps prevent direct contact with water and dust. The combination of the profile and flexible swimsuit is ideal for illuminating the facades or infrastructures of restaurants, offices, shopping centers, nightclubs, fashion warehouses, etc. [1] <https://www.barcelonaed.com/iluminacion-led-arquitectura/banador-de-pared-led/banador-flexible-24v-20wm-2700k-42chipm-ip67-angulo1545-cri80.html> [2] <https://www.barcelonaed.com/iluminacion-led-arquitectura/banador-de-pared-led/banador-flexible-24v-20wm-rgb-42chipm-ip67-angulo1545-cri80.html>
