

Magnetic rail 20mm integration 48V - 2 meters

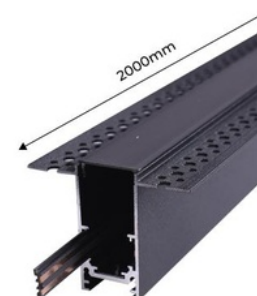

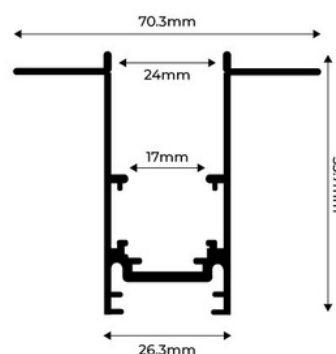

Magnetic integration rail made of high-quality aluminum, available in white and black. Allows for very simple placement of LED magnetic lights, according to the needs of each project. It offers numerous configuration possibilities and can be installed on both ceilings and drywall walls, posing no risk to users as it operates at low voltage (48V). **Includes a plastic cover to cover the free surface between fixtures and two end caps**
