# 220V AC COB LED Strip - 10W/m - 12mm - IP67 - 5 meters

The 220V AC COB LED strip stands out for providing bright and even illumination, without shadows or visible light spots, unlike traditional LED strips. It has a total width of 12mm (PCB: 10.5mm) and its great flexibility allows for easy installation in any space. It supports cuts every 50 cm and has a CRI>90. By incorporating COB technology, it presents a high luminous efficiency of 100lm/W, with a density of 288 chips/meter. Due to its IP67 protection rating, it is suitable for installation outdoors. It is adjustable and is available in warm white (2700K), neutral white (4000K), and cool white (6000K).
