

Infrared motion sensor PIR orientable IP44

Ref. SP15B

Adjustable Infrared Motion Detector (PIR) for indoor or outdoor wall mounting, with an IP44 protection rating. The infrared sensor detects when someone enters its field at an angle of 180 degrees, with a range of 12 meters and a maximum load capacity of 1000W (Energy-saving bulbs) and 2000W (Incandescent). Infrared sensor capable of identifying light at night and during the day, allowing for adjustments to the delay time and the amount of lux for its operation. Adjustable. 220-240V/AC Max. 1000W (Energy Saving Bulbs); 2000W (Incandescent). 55x76x67mm ∠ 180° IP44 ⇔ 12m PIR

Product data

Detection angle (°)	180
Certs	CE, ROHS
Connectivity	PIR
Dimensions (mm) LxWxH	55x67x76
Frequency (Hz)	50 - 60
Guarantee	According to legal warranty: 3 years
IP	IP44
Assembly	Surface
Orientable	Yes
Maximum power (W)	2000W
Detection range (m)	max. 12m
Temperature range	-20°F ~ +40°F
Nominal Voltage (V)	230
