

Sunricher 2 in 1 Converter: DALI to 0-10V + DALI Relay

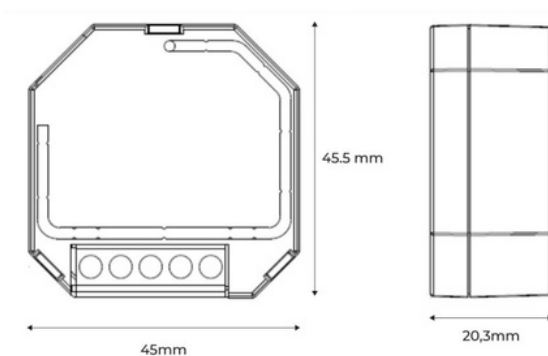

Ref. SR-2701S-N

The Sunricher DALI to 0-10V + DALI Relay Converter serves two functions: it allows the regulation of 0-10V devices by converting the DALI signal to 0-10V and also acts as a relay device that enables the turning on and off of light sources via DALI. Its compact size allows for easy integration into the existing system and can switch voltages of up to 250V/AC and 30V/DC.

Product data

Certs	CE, ROHS
Warranty	5 years
IP	IP20
Material	Plastic
Temperature range	-20°F to +50°F
Control system	DALI, 0-10V
Nominal Voltage (V)	12-24V DC, 100 - 240V AC
Outdoor Use	No
