

Dual white CCT controller for LED strips with RF touch panel - 5-24V/DC

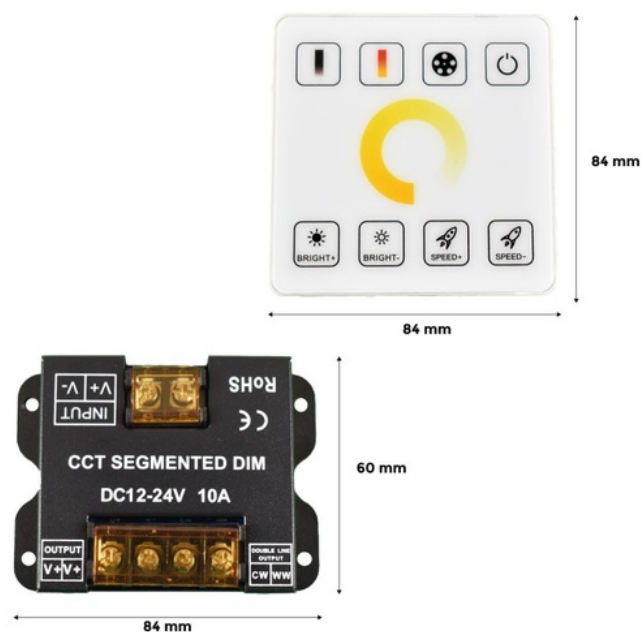

Ref. RF86-02

The dual white CCT controller for LED strips allows you to control the lighting of CCT LED strips through a soft and highly sensitive touch panel, enabling you to change the shades of white and their intensity. In addition, it stores the user's settings and can be easily mounted on the wall using two adhesive strips (included), or with two screws (not included). Compatible with most CCT LED strips on the market. Maximum range: 15 m. Ideal for creating environments with personalized lighting easily. ** Includes: a controller, a touch panel, 2 adhesive strips, and a manual **

Product data
