

Integrated LED strip profile for stairs - LED strip ≤ 12 mm - 2 meters

Ref. BPERFALP184-9

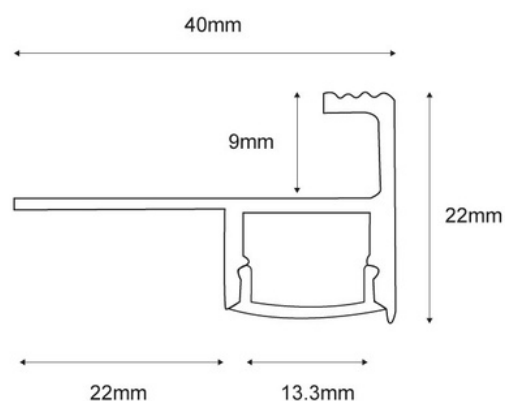

The aluminum integration profile is a very useful accessory for our LED strips if we intend to illuminate and highlight the steps of our home. This profile is ideal for illuminating steps at night to beautify the material, improve visibility, and create minimalist lines of light in the space. They are perfect for museums and art galleries, homes, etc. The surface has elevations for better grip when stepping. - - Caps and LED not included - -

Escalón superficie
