

Aluminum profile for LED strip 15.4x32.2mm (2m)

The 2m long aluminum profile for surfaces is a very useful wall accessory for our LED strips to illuminate and highlight elements such as paintings, sculptures, hanging objects, walls, etc. They look great, for example, in museums and art galleries, although they also work perfectly for lighting our space and creating a minimalist and modern atmosphere. Additionally, it can be used as a decorative element or indirect lighting on empty walls. - Caps and LED not included -
