

Single-phase track spotlight with adjustable light angle and 8W articulated spotlight in 2800K

Highlights elements and generates added value with the single-phase track spotlight with adjustable and articulated light angle of 8W at 2800K measuring ø58x243mm. It offers solutions for lighting in businesses, stores, exhibitions, etc. It is ideal for lighting objects such as bags, furniture, signage etc. with a pinpoint light that can be adjusted with an adjustable light angle between 15 and 60°. To do this, you need to manipulate the front ring of the spotlight and move it horizontally. Additionally, it has an articulated arm capable of moving 180°. With an IP20 protection rating, it is for indoor use only. Available in black and white finishes and made of high-quality aluminum. It provides uniform lighting and has CE and RoHS certifications, which are synonymous with quality and safety.
