

Tabletop 3D hologram fan - Ø 52cm - 72W

Ref. K_BH52-MESA

The 3D tabletop holographic fan is an innovative advertising display device that generates 3D images or holograms with great visual impact. Uses the most advanced LED technology to create the illusion of floating figures that allows for the display of brands, products, or messages in an attractive and impactful way. It is possible to display videos or images easily and intuitively from a smartphone or computer with the SpinDisplay application. Maximum resolution and brightness, with a total of 624 LEDs and a viewing angle of 170°. It incorporates a transparent protective cover made of acrylic and a remote control. ** Includes stable support for tabletop placement **
