

Single color IC COB LED strip - 24V DC - 12W/m - IP20 - 360LED/m - Width 10mm - 5 meters

Ref. BLSCOB-24V12W-IC-IP20-BF

The 24V DC COB LED strip offers a bright and uniform lighting, without shadows or visible light spots, unlike traditional LED strips. Each LED chip has its own light source and integrated controller (IC), allowing for individual control of each LED in the strip. In this way, the LED strip can be programmed to create customized lighting patterns. With a density of 360 chips/m, it provides high-quality and efficient lighting (100lm/W). Available in warm white (3000K) and cool white (6000K).
