

Male quick connector for IC digital LED strip - 5-24V DC

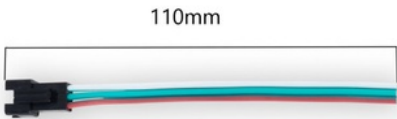

Ref. B1681-M

The 3-pin male quick connector allows for the connection of 5 to 24V DC digital IC LED strips to devices and controllers, simplifying installation without the need for soldering. Whether in domestic, commercial, or entertainment applications, this connector provides a reliable, practical, and efficient connection.

Product data

Certs	CE, ROHS
Frequency of Use	Intensive
Warranty	According to legal warranty: 3 years
IP	IP20
Material	Plastic, Metal
Temperature range	-20°F ~ +40°F
Control system	IC
Nominal Voltage (V)	5-24V
Outdoor Use	No
