

DALI to 0-10V converter + DALI relay - 500W

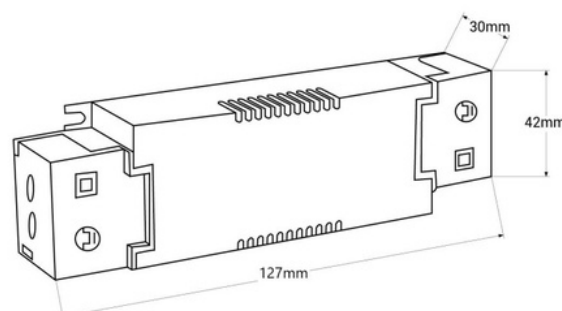

Ref. PE-DALI-10V

The DALI to 0-10V Converter + DALI Relay serves two functions: it allows for the dimming of 0-10V devices by converting the DALI signal to 0-10V and also acts as a relay device that enables turning light sources on and off via DALI. It can switch voltages of up to 250V AC.
