

Trimable

Trim to 5mm, 6mm or 8mm for narrower channel

On/off and dimming touch switch - 5-24V DC

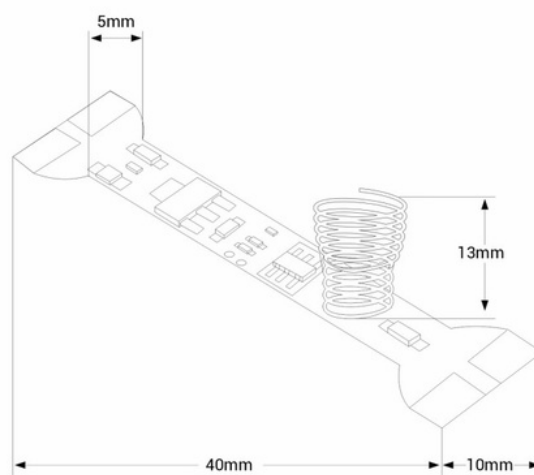

Ref. FDTSM-T10

Compact touch switch with a luminous indicator for installation in profiles and direct connection to single-color LED strips from 5 to 24V DC. It offers the on/off function, and also enables touch regulation of the light intensity, allowing for precise and comfortable adjustment of the output voltage.
