

**One device meets different use scenes**

Suitable for various family curtains, one device can work for both single-side opening and double-side opening curtains! Save your time thinking about how to make your curtains smart!

**One-time fee from purchase to installation**

Help you to retrofit the original curtain, avoiding the replacement of the original curtain track like traditional electric curtains.

# SONOFF Intelligent Curtain Motor - Zigbee - 5V DC/1A

Ref. SONOFFZBCURTAIN

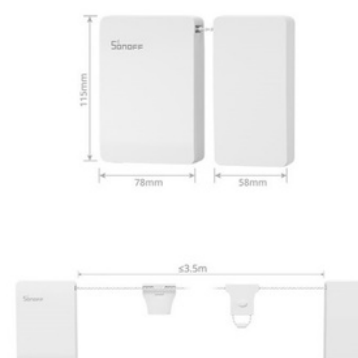

The SONOFF Zigbee smart curtain motor is designed to automate the control of curtains. It allows control from anywhere via a compatible mobile app, a remote control, or through voice command. It is possible to schedule specific times to open and close the curtains, adjust their position, and control the amount of light entering the home. It also allows for controlling the curtains through other smart devices. Easy to install, requires no changes to the current curtain, and no tools are needed. The high-speed motor can move curtains weighing up to 8 kg and includes a rechargeable 4000mAh battery with long battery life.

**Long Battery Life and Easy to Charge**

Using 4000mAh lithium battery, after fully charged, it can be switched on and off twice a day for up to 3 months of use. It can also be charged all the time to keep the battery fully charged at all times.
