

LED module for signage SMD3535 3W 12V IP65 15°.

Ref. BM1422BF

Metallic LED modules coated with plastic and self-adhesive in extra-cold color. Very commonly used in signage to illuminate signs, light boxes, luminous posters, lighted boxes, letters, and logos. Their mounting system is very simple, as you can either stick them using 3M or attach them with screws. Their light is very focused (15°), so the illumination does not disperse. Very durable. *Side lighting for light boxes or lightbox. The price is per unit of LED bulb (they are sold individually). 12V-DC 3W IP65 15° 6500°K Adjustable Asymmetric optics 45x15 degrees.

Product data

Adhesive	3M
Beam angle (°)	15
Certs	CE, ROHS
CRI	80-85
Dimensions (mm) LxWxH	54x30x18
Dimmable	Yes
Frequency of Use	Intensive
IP	IP65
Kelvin (K)	6500
Lumens (Lm)	330
Material diffuser	Plastic
Power (W)	3
Temperature range	-20°F ~ +40°F
Nominal Voltage (V)	12V DC
Type of LED	SMD 3535
Key	Cold white
Outdoor Use	Yes
