

Recessed motion sensor 360° IP20

Ref. S1120

Recessed motion sensor, consists of an IR infrared detector with high sensitivity in the integrated circuit, with a range of 360° and a motion detection speed of 0.6-1.5 meters per second. 230Vac 1200W (incandescent) 300W (LED) Ø76x76mm ≈ Ø62 ∠ 360° ⇔ 0-6m PIR IP20

Product data

Detection angle (°)	360
Certs	CE, ROHS
Energy efficiency class	A+ (2021)
Connectivity	PIR
Dimensions (mm) LxWxH	Ø76x76
Frequency (Hz)	50 - 60
Frequency of Use	Intensive
Warranty	According to legal warranty: 3 years
IP	IP20
Material	Plastic
Assembly	Recessed
Orientable	No
Weight (g)	150
Detection range (m)	0-6
Temperature range	-20°F ~ +40°F
Nominal Voltage (V)	230

Outdoor Use	No
-------------	----
